Introduction

Jupiter Advanced Projects established in the year 2004 under the banner of Jupiter International Trading later Rebranded as Jupiter Advanced Projects (JAP).

JAP adopted its main policy as “Quality is the highest Priority”, which was the main reason that helps the Company grow to fame, stability in a very professional manner. The company is specialized mainly in Steel structural Fabrication works, with specialized division to ensure craftsmanship and quality of the highest order.

Combined by the spirit of our Management Team and our skilled Staff the company is growing from strength to strength

JAP incorporates the latest machines especially with the factory to offer the best of services with optimum quality and innovation thereby enhancing customer satisfaction. The company has a well-equipped factory, machines and skilled manpower

JAP Continuously looking for ways to provide more thoughtful and sophisticated means to meet the various requirements of our clients. It is engaged in Metal Fabrication works with specialized divisions to ensure craftsmanship and quality of the highest order.

The growing professionalism of our company is growing along with the progress of our Company. The objective of the management of the company is to provide the products and services that conform to the contractual requirement of its client in a manner that will satisfy the clients and thus creating a long-term relationship with the Client, the Consultants and the Contractors

In order to demonstrate its commitment to provide quality products & services consistently to our esteem clients, agreed requirements JAP is in the Process of implementing the quality management system ISO 9001:2008.

VISION

OUR VISION IS TO BE A PREFERRED STRATEGIC PARTNER FOR OUR CUSTOMERS WITH A REPUTATION FOR CAPABILITY, HIGHEST QUALITY AND EFFICIENT SERVICE THAT SECURES FULFILLING CLIENT REQUIREMENTS AND SATISFACTION

MISSION

OUR MISSION IS TO DELIVER PRODUCTS AND SERVICES THAT CONFORM TO THE CONTRACTUAL REQUIREMENT OF ITS CLIENT IN A MANNER THAT WILL SATISFY THE CLIENTS WITH HIGHEST STANDARDS OF ENGINEERING PRACTICES AND THUS CREATING A LONG-TERM RELATIONSHIP WITH THE CLIENT, THE CONSULTANTS AND THE CONTRACTORS.

CORE VALUES

- ❖ **Integrity.** We look Forward acting with Strong ethics as priority for everyone representing the organization as well as the Company's behavior as a whole for our lasting business relationships built on open communication between our employees, Clients, Consultants and Contractors.
- ❖ **Honesty.** It's our core business practice to act in a transparent, trustworthy manner that earns the respect of colleagues, customers, and the public.
- ❖ **Accountability.** Accepting responsibility and following Company rules and regulations are the core accountabilities of our employees by their actions to build trust internally and externally. All our employees are accountable for their own actions as well as their co-workers. We are proud serving our customers in the highest standards of engineering practices, quality by execution in the most efficient manner, on time and satisfying our customers.
- ❖ **Promise to Customers.** Creating a great customer experience begins with staying true to the words we speak and the bonds we make.
- ❖ **Learning.** A culture of humility and continuous learning is a bedrock principle of our Company.
- ❖ **Teamwork.** Our employees work together by which they create greater things than themselves as individuals. Our employees work together to meet our customers' requirements and provide the best solutions for our customers, identify areas of improvements to our services according to our customers' ongoing, as well as future requirements.
- ❖ **Quality.** We provide quality service with craftsmanship of our products and services, to the highest standards.

QHSE POLICY

JUPITER ADVANCED PROJECTS (JAP) is involved in the Safety and health of people and the protection of environment as a key factor while meeting its strategic objectives to increase the standard level and quality of its supplied products and services in order to satisfy the customer needs.

The Management and Staff of JAP are committed to:

- Establish, implement and maintain a QHSE Policy that is appropriate to the purpose and context of the organization and supports its strategic direction.
- Appropriate objectives and targets are established and QHSE management programs are formulated.
- Comply with the applicable local and federal regulations, customer requirements and to maintain a safe and pollution-free operating practice that complies with the applicable Sultanate of Oman legal and other client requirements.
- Provide and maintain safe, environmental and healthy working conditions for all our employees, who are the company's most valuable asset.
- Consult, communicate and collaborate with employees and other stakeholders on QHSE matters and QHSE Performance
- The continual improvement for its Safety, Health, Environmental and Quality performance standards and to protect the environment and the associated health and safety of its employees, customers, suppliers, and the public.
- Prevent injury and ill health to its employees and other interested parties by Eliminating hazards and reducing OH&S risks
- Provide appropriate tools, equipment, operational processes, safe system of work covering all our activities and support reasonably required to ensure success.
- Prevent incidents, accidents, injuries, illnesses, environmental impacts and provide high quality products.
- Where there are risks to safety, health and environment, Aspects need to be assessed under specific duty or regulations. We will ensure that our assessments are carried out and that all actions shown to be necessary will be implemented.
- The continual improvement for its Safety, Health, Environmental and Quality performance standards and to protect the environment and the associated health and safety of its employees, customers, suppliers, and the public. Only through the cooperative effort of all can the best possible QHSE record be achieved

JAP communicates this policy to all employees through training and daily management activities, both to ensure their understanding and to ensure that the policy is properly upheld. Our policy is made available to relevant interested parties upon request.

SCOPE OF SERVICES OFFERED

J.A.P offers structural steel detailing, design, fabrication and erection to the clients across the G.C.C & Arab Countries. Our in -house design team works together with detailers to develop detailed plans, sketches for all types of steel structural works

J.A.P specializes in designing safe steel structures without compromising on aesthetics and over all functionality. our workshop at Barka Industrial Estate is equipped with all machinery required for structural steel fabrication. Work shop machine layout has been planned to assure smooth flow of the production and easy handling of materials. Our in-house Installation team is experience personals and they can handle any type of Installation works in Oman or MENA region.

For the service, **J.A.P** commits to offer all aspects structural steel, design, manufacturing and Installation. At its aim to meet the client 's needs and bring improvement to the organization such as follows.

- ❖ Serve our customers in order to meet their needs and expectation
- ❖ Ensure effective and efficient operations and control of processes
- ❖ Continuously improve the effectiveness of the quality management system

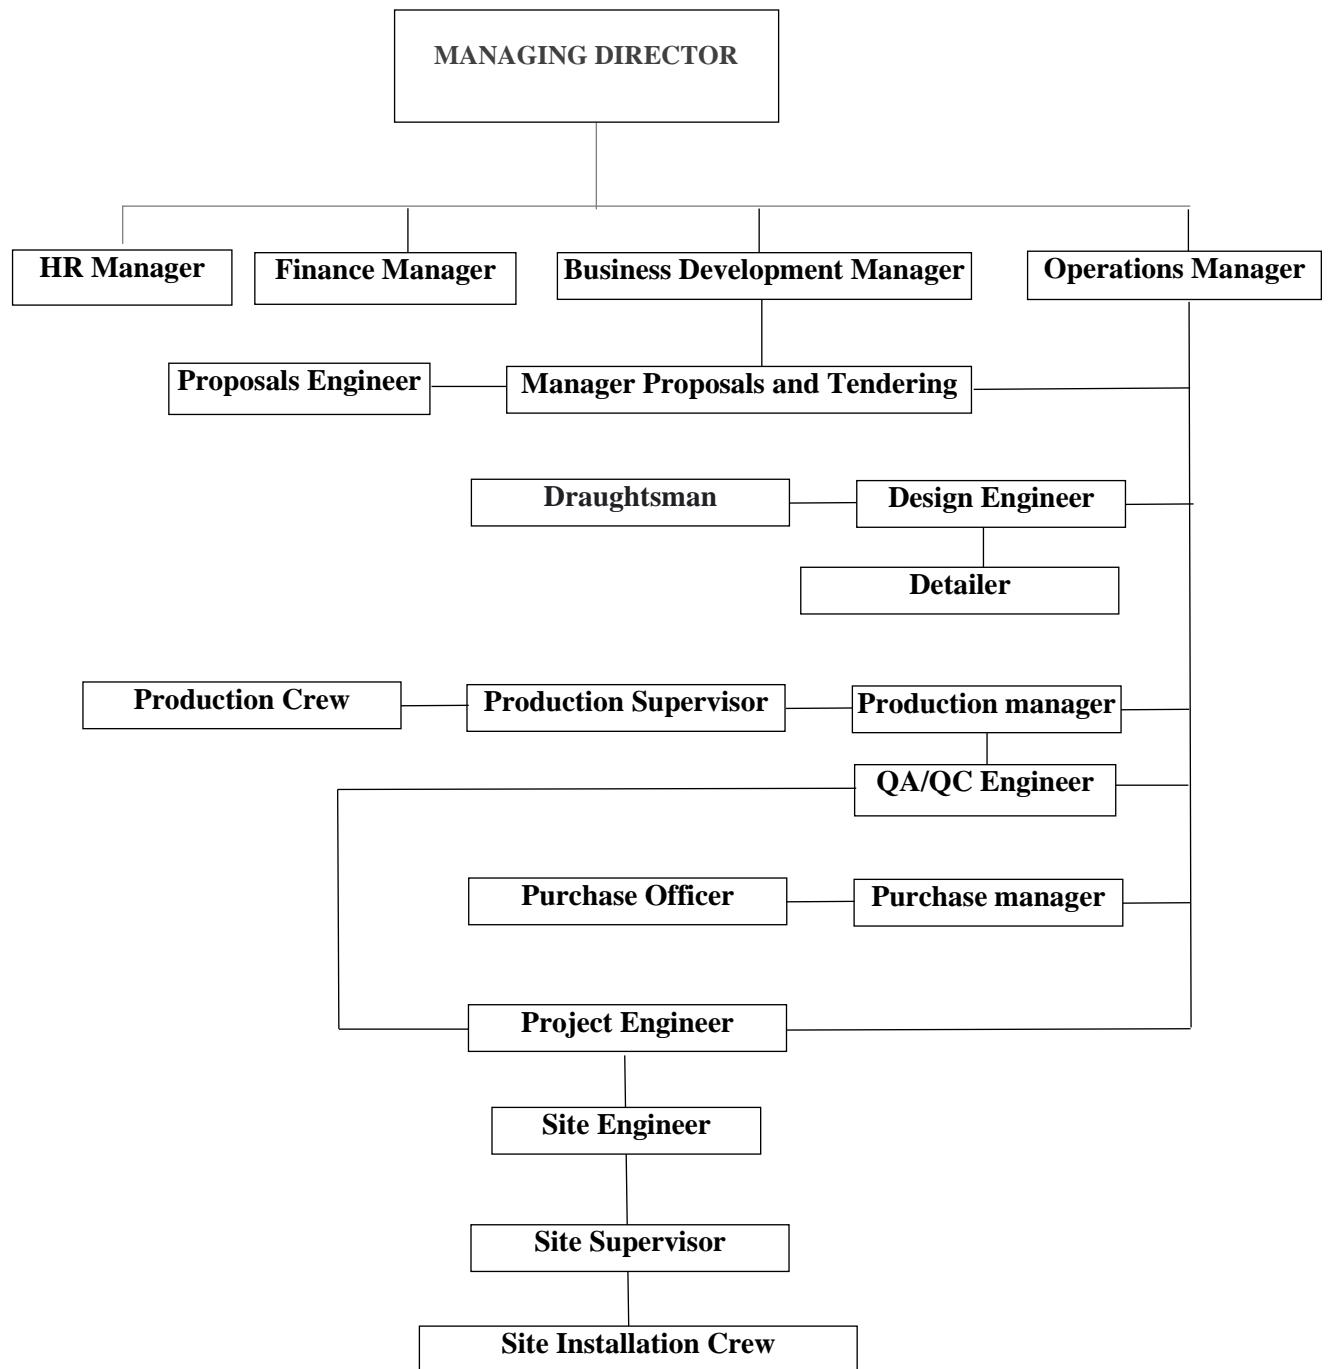

SERVICES OFFERED

- ❖ Structural Steel Designing, Supply, fabrication, Coating & Installation
- ❖ Pre-Engineered Buildings
- ❖ Steel Fabrication (Skids. Heavy Structure, Steel Bridges...etc.)
- ❖ Stainless Steel Fabrication. - Supply, Fabrication and installation of Stainless-Steel Handrails, Kitchen Hood & Stainless-steel Table
- ❖ Silos fabrication
- ❖ Portable cabins
- ❖ Machining works- Steel drilling, cutting, grinding,
- ❖ Sand Blasting, Galvanizing, Painting & Powder Coating
- ❖ Arc welding, Oxy fuel welding
- ❖ Sheet metal rolling, shearing & punching.

ORGANIZATION CHART

PROJECT: TENDER NO. (30/2018) – CONSTRUCTION OF 2X20MVA (JALAN BANI BU ALI & JALAN BANI BU HASSAN AND 3PSS) AND UPGRADING OF SUR INDUSTRIAL AREA PSS TO 2X20MVA AT AL SHARQIYAH SOUTH GOVERNORATE

SUBJECT: Proposed Subcontractor for Shed Works (Transformer & Capacitor Bank)

Ref.: 1) GTGC Letter Ref. #: GTGC/T30-2018/TECH/047

With reference to your letter, GTGC/T30-2018/TECH/047 dated Jan. 16, 2020 received on Jan. 19, 2020. Please be informed that we have evaluated your proposed subcontractor, **Jupiter Advanced Projects** based on the company profile & additional supporting documents provided. As per evaluation, the company is approved with the following condition:

1. GTGC to ensure their subcontractor to follow HSE procedures as well as to comply with all MZEC requirements.
2. GTGC has to ensure the full control over above-mentioned sub-contractor in any aspect related to the project.
3. GTGC to ensure their subcontractor that shed installation must be according to the approved drawing plans. All relevant test reports shall be furnished.
4. The evaluation is considered for civil engineering works related to shed installation only.

Furthermore, MZEC has the full right to terminate the involvement of above-mentioned subcontractor from the project whenever found any major nonconformance.

This is for your information.

Best regards,

Mohammed Ali Khamis Al Ghefeili
